FRONTLINE® PLUS – CONSISTENCY IS KEY

Treat your pet with FRONTLINE Plus and say good-bye to fleas; with the SATISFACTION PLUS GUARANTEE™ we've got you covered. To be eligible for the guarantee, apply FRONTLINE Plus to all the dogs and cats in your household for at least three consecutive months.*

WHY THREE MONTHS?

6-8 weeks before you even notice a flea

Flea infestations don't happen overnight. In fact, they usually begin 6-8 weeks before you ever notice a flea. Once on your pet, fleas begin feeding and breeding – laying the groundwork for an ugly infestation. Treating your pet is the first step towards solving the problem, but the first flea stages are just getting started...

Month 1 The flea population increases

Once you've applied FRONTLINE Plus, any fleas on your pets will be killed. However, the eggs and larvae that were already hidden in your home will still mature into new fleas – usually within a month. As these new fleas emerge, your flea problem may look like it's actually getting worse, but it's infestation is running its course and is on the way out.

Month 2 The flea population starts to decrease

Because FRONTLINE Plus destroys fleas' ability to reproduce, once all the fleas in the home mature, the nursery is empty and the cycle is broken. This often happens in the second month after treatment, but it can take longer depending on temperature, humidity and other factors.

Month 3 The flea life cycle is broken

You can't keep your pets from picking up new fleas, so apply FRONTLINE Plus monthly to all dogs and cats in the household to kill fleas before a flea infestation can start all over again.

FRONTLINE® SATISFACTION *Plus* GUARANTEE™

The #1 veterinarian recommended solution for fleas and ticks¹ now comes with the SATISFACTION PLUS GUARANTEE™, offered exclusively through veterinarians* on the purchase of a 3-pack or 6-pack of FRONTLINE® Plus.

If you are not completely satisfied we will:

- **Refund your money, or**
